PROCEDURES DONE IN ISOLATION

These are generally follow-up procedures or specific requests by patients or medical practitioners. The clinical rule that applies is that these codes may be listed as a professional fee in isolation, but may not be charged in conjunction with Optometric Examinations. Please note that the sum total charged for such procedures done in isolation may not be more than an Optometric Examination (11001).

LOW VISION

The Low Vision Assessment examination is performed in addition to a visual examination, where patients present with visual acuity that is worse than 6/18 or visual fields that are severely restricted. The reason being that such a visual examination is performed with a different approach to the conventional visual examination (both psychologically and clinically). In addition to the low vision assessment, further Procedures done in isolation are necessary in order to determine what device and training is required as treatment. Please note that special examination techniques apply to this area of expertise.
